EchoRealty welcomes tenants to new affordable homes in the heart of Parramatta

EchoRealty is working in partnership with Dardas Constructions at 127–129 Great Western Highway to connect residents with modern apartments in a growing and well-connected area close to Parramatta.

This brand-new development offers a mix of one- and two-bedroom homes designed to suit a range of households. EchoRealty has had great interest from the community about the units with a limited number of homes remaining on the market.

Located just minutes from Parramatta CBD, the property places residents close to essential services, transport and everyday conveniences.

With easy access to the Great Western Highway, M4 Motorway and nearby bus and train connections, residents can stay connected to work, education and community. Local shopping centres, cafés and green spaces such as Mays Hill Park are also within easy reach, supporting a balanced and convenient lifestyle.

EchoRealty continues to focus on connecting people with homes that are not only well-located but also suited to their needs. By working closely with development partners, EchoRealty is helping to expand access to quality housing and support more people to find a place they can call home.

Acknowledgment of Country

EchoRealty acknowledges the Traditional Custodians of the land where we deliver our housing services. We acknowledge and pay our respects to all Elders past, present and future. We welcome all First Nations Peoples to our services, as we walk together towards reconciliation.

Review our service

“

I recently rented a unit through EchoRealty and had a very positive experience overall. The team was professional, organised, and made the leasing process smooth from the beginning. I'd particularly like to acknowledge my property manager, Su Su Ngo, who has been great to deal with throughout. She has been consistently responsive, approachable, and proactive in handling any queries. Her clear communication and willingness to assist made the entire experience much easier and stress-free. Overall, I'm very satisfied with the service provided by EchoRealty and appreciate the support from Su Su Ngo. I would happily recommend them to others looking for a reliable and professional real estate experience.”

- **Adnan**

“

Carol Wong is one of the best property agents I have ever had. Our dishwasher was broken and she had it replaced super-fast and we now have a brand new one. I would highly recommend her to friends and family.”

- **Jim**

“

The team at EchoRealty are very professional, approachable, pleasant and friendly experienced especially Clare and Mary at the office. I cannot rate Maral highly enough. Her willingness to listen, support and respond in a timely manner and keep us informed through the process. Thank you very much, Maral; your work is greatly appreciated. Kelly has been great to deal with as our property manager. The process of becoming a new tenant and signing up the lease has been made very simple. Kelly has been very helpful with my questions and calls before my move-in date. Thank you EchoRealty team and keep up the great work!”

Getting to know EchoRealty

#MEETECHO gives you, our resident, a better insight into who we are as your support team. In this edition, we interview EchoRealty Senior Property Manager, Alana Chase.

1. How long have you been with EchoRealty?

I've been with EchoRealty since October 2024.

2. What were you doing before you came to EchoRealty?

Before joining EchoRealty, I worked in private property management across both Sydney and Canberra, gaining a combined five years of hands on industry experience across a wide range of property types and client needs.

3. What made you want to become a Property Manager?

I've always enjoyed roles that balance people, problem solving, and organisation. Property management allows me to support residents in their homes while also working closely with owners to protect and grow their investments. I find it rewarding being able to make processes clearer, resolve issues fairly, and create positive outcomes for everyone involved.

4. What is a typical day for you?

No two days are ever the same, which is what I love about the role. A typical day might include responding to resident and owner enquiries, coordinating maintenance, reviewing applications, managing compliance, and working closely with my team to ensure everything runs smoothly. It's fast paced, but very rewarding.

5. What is your favourite thing about working for EchoRealty?

Without a doubt, it's the people, the culture, and the company structure. EchoRealty genuinely values collaboration, support, and doing the right thing - both for residents and for employees. It makes a huge difference working for a company that practices what it preaches.

6. What inspires you?

I'm inspired by opportunities to continuously improve, both professionally and personally. Working with a supportive team, seeing positive outcomes for residents, and knowing that my work contributes to stable, well managed homes motivates me every day.

Managing your energy costs at home

Energy bills can rise quickly, especially during winter and summer when heating and cooling are used more often.

If you're looking for a better deal, the Australian Government's Energy Made Easy website lets you compare providers based on your usage and location, so you can find a plan that suits your household. This program helps you to understand your bill by looking at your usage, billing period and whether you're being charged peak rates.

Heating and cooling are often the biggest contributors to energy use, so small adjustments can make a noticeable difference over time.

If you're finding it difficult to pay your bill, contact your energy provider early to discuss payment plans or support. You can also ask about rebates or concessions you may be eligible for.

You can also reduce your energy use at home with a few practical changes, such as:

-  Seal gaps around doors and windows to keep air in
-  Use curtains or blinds to manage temperature
-  Use blankets or electric throws instead of increasing heating
-  Only heat or cool the rooms you're using
-  Turn appliances off at the wall when not in use

Preventing mould this winter

Mould can become more common during winter, when homes are closed to keep warm.

Moisture builds up indoors due to everyday activities like showering, cooking and drying clothes which in turn increases humidity.

Here are some simple habits to help prevent mould in your home:

Let air circulate through your home—especially in the bathroom during cold weather.

Store fruit and veggies out of plastic and in sealed containers or the fridge to reduce excess moisture.

Wipe down wet surfaces in bathrooms and kitchens and keep doors open to help them dry faster.

Regularly clean evaporation trays in air conditioners, dehumidifiers and fridges.

Let the sun in! Natural light helps dry damp areas and slows mould growth.

Vacuum carpets and rugs often using a High Efficiency Particulate Air (HEPA) filter vacuum to help trap mould spores.

Dry clothes and shoes thoroughly before putting them away and leave wardrobe doors open now and then to air them out.

Manage your tenancy through our Tenant Portal

The EchoRealty Tenant Portal gives you 24/7 access to everything you need to manage your tenancy.

With secure logins via web or app, it simplifies your tenancy experience with these features:

Easy Access

Log in anytime, anywhere.

Organised Communication

Manage all tenancy communications in one place.

Account Insights

View receipts and rental details.

Repair Requests

Submit and track maintenance requests, including uploading images.

Personal Updates

Update your details or reset login credentials with ease.
